## WORK EXPERIENCE

**Evangadi Networks** 2024 - PRESENT  
Full-Stack Web Developer

- Built and launched the Evangadi Forum using React, Node.js, MySQL, and JWT authentication, enabling secure and scalable user interactions.
- Developed the Amazon Clone, integrating React, Node.js, Stripe for payment processing, and Firebase for real-time data handling, delivering a fully functional e-commerce platform.
- Created the Netflix Clone, using React, TMDb API, and movie database management to showcase seamless API integrations and dynamic content rendering.

**ST Net Trading PLC** 2023 - 2024  
General Manager

- Led cross-functional teams to achieve business goals through collaboration and communication.
- Solved operational challenges by implementing strategic and efficient solutions, fostering organizational growth.

**ASTF General Construction PLC** 2016 - 2023  
General Manager

- Directed multidisciplinary teams to execute large-scale projects on time and within budget.
- Enhanced decision-making and problem-solving skills to meet client expectations and project milestones.

**FATS Construction** 2011 - 2016  
Site Engineer/Material Engineer

Optimized material logistics and workflows, applying analytical and problem-solving skills to enhance efficiency and project outcomes.
